International Freight Forwarders

Welcome to Nik Tak !

NIK TAK customers receive exquisite services in any mode of transportation such as air, road, sea and rail.

We excel at creating integrated solutions to combine freight management and value added services. Our aim is to support you in achieving your logistics performance level both in Iran and abroad.

We have got precise knowledge of the variety markets in Iran such as automotive, energy, food products, etc... We also have specialized in warehousing and industrial projects.

Nik Tak mission is as much about consulting as it is selling; to achieve this, Nik Tak offers the support you need in your business sector that way we implement your requirements...

As NIK TAK our priority is satisfaction of you and your customers…

Overview

Established in 1989 in Tehran, NIK TAK assures absolute quality in all provided services.

Our professional team are constantly undergoing training, in order to keep up with the ever-changing market of Iran, our aim is providing best possible national and international freight forwarding services to our customers.

As is to be expected from a top-quality service provider, NIK TAK is a member of the most important freight forwarding associations such as "International Transport Companies Association of Iran (ITCA)" ... "individual member of the International Federation of Freight Forwarders Associations" and etc... Its quality management system has been certified in 2006, according to the standards of ISO 2000-9001 by TUV CERT.

In our constant search for excellence, NIK TAK not only continually monitors the quality of the service, but also uses the most modern logistic methods, distinguishing itself as an innovative company, not only at a domestic level but internationally also, assuring the fulfilment of our promises to each and every one of our customers.

One of the advantages NIK TAK offers over other freight forwarders is the capacity of analyzing the best possible modus for each shipment. This way we can advise our local customers and overseas partners with complete information of all the actual options, specifying advantages and disadvantages for that particular type of freight and customer.

NIK TAK offers the following freight forwarding and related services:

- **Import/ Export Air Freight**
- **Import/ Export Ocean Freight**
- **Import/ Export Truck Freight**
- **Customs Clearance**
- **Transit**
- **Rail Services**
- **Consolidation**
- **Deconsolidation**
- **Special Services**

NIK TAK
Forwarding Services

Your reputation and success depend on whether you receive or deliver your products on time and at a reasonable cost from any part of the world to or from Iran. What you need is a reliable and cost-effective logistic partner that manages the delivery of your cargo by road, sea, air or rail. NIK TAK can serve you with integrated supply chain solutions that combine global freight management with value-added services. These make you more competitive and cost-effective in the market.

Air Freight

NIK TAK offers air freight at three speeds for an optimal balance between time and cost: Economy, Regular and Priority.
Our own terminal handling, regular performance reports and door-to-door service guarantee an unbroken chain of responsibility.

We also offer cross-trading and third-party traffic, meaning we handle cargo through any airport irrespective of where you are located.

Our services include custom clearance and transportation from airport to any city in Iran.

Forwarding
Services

Land Freight

The use of over-the-road transportation for the international shipping is by far the most popular method of international transportation chosen by Iranian importers, as NIK TAK we design and implement logistics solutions to fit the particular demands of each shipment while maintaining the reliability and flexibility that our clients need, whether they ask for transport of dry, refrigerated, bulk, out of gauge or heavy haulage, we provide competitive road and rail rates from origin to destination.

NIK TAK has an extensive LTL and FTL network from/to Europe and Russia; Our own fleet management combined with dedicated carriers guarantee excellent service, flexibility and efficiency…

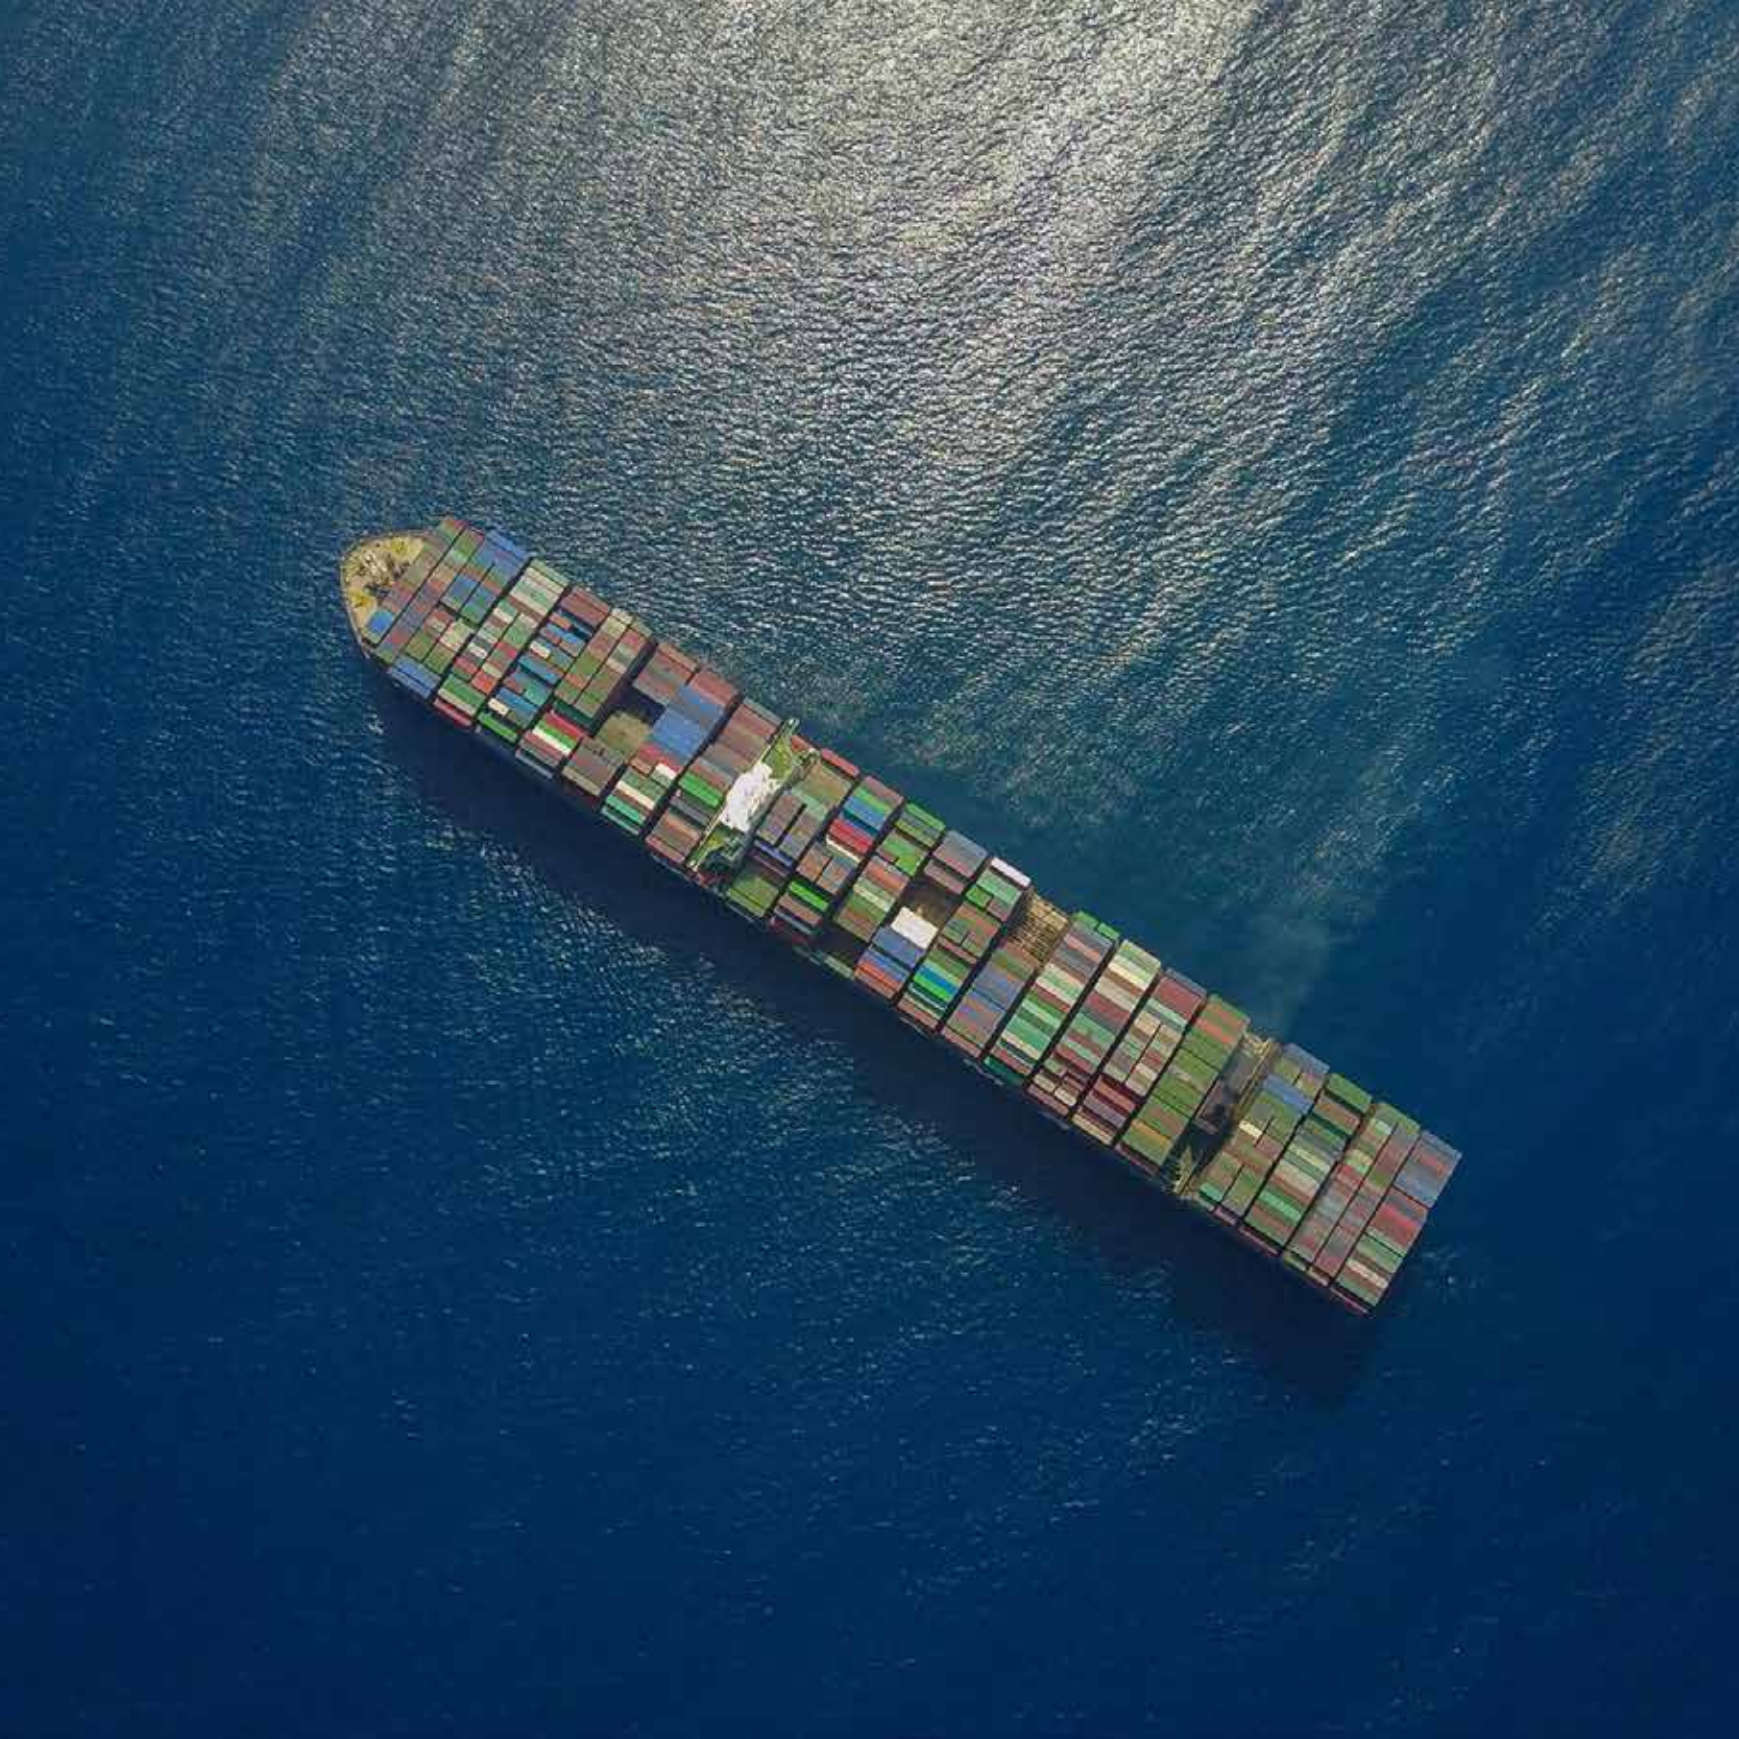

Ocean Freight

NIK TAK
Forwarding
Services

We offer door-to-door service for less-than-full-container shipments (Pipeline LCL) and full container loads (FCL), both in standardized containers and as refrigerated or oversized cargo.
We offer frequent and time-definite departures to and from the world's major ports; meaning transit times and arrival dates are pre-set.
We have full control over the entire chain and offer status reports, making our services faster and more reliable.

Heavy Cargo

In cooperation with our partners worldwide and leading strong transport team, NIKTAK is capable to undertake large scale shipments like oil and petrochemical industry projects, heavy lift logistics, mining, mills and machinery projects as well as chartering ships and services like Semisubmersible heavy lift vessels, dock vessels, semi-submersible barges, floating cranes, tugs, etc…

Focused on optimization and cost effectiveness, NIKTAK provides all information on transport practicability, feasibility studies for heavy and oversized cargoes, identification of potential logistical problems, advice on insurance and packing…

After specifying final transport procedure and defining of working tools our qualified and experienced team shall monitor and supervise all relevant aspects of the project transportation…

In-time notice to all parties concerned, status reporting and cost control are the keys of zero defect approach in a project transportation and of course the priority of NIKTAK.

Transit

Geographic location of Iran and its access to international waters, roads and rail connections, has made Iran a gateway to the markets in CIS, Iraq and Afghanistan; Today over ten million tons of oil and non-oil products are being shipped through Iran borders to these destinations along with domestic customs.

With more than 28 years of experience, NIK TAK has evolved into one of the leading provider of innovative and fully integrated supply chain solutions in transiting cargo from the entire world up to CIS countries, Iraq and Afghanistan as well as domestic customs…

NIK TAK would take care of the entire transportation operation from project supervision to cargo consolidation and freighting, and would make sure to deliver your cargo in shortest transit time with best possible services…
